Lucara's Karowe mine is located in central Botswana and has been in production since the middle of 2012. The mine has consistently delivered a stream of exceptional diamonds since mining started, in the central and south lobes of the kimberlite, in the first quarter of 2013.

This will be the third "Exceptional Stone Tender" of diamonds recovered from the Karowe mine in 2014. In addition to the Exceptional Stone Tenders, regular tenders are conducted through the year. Lucara intends to sell up to 420,000 carats a year from its Karowe Mine.

## Rough Diamond Tender
