The Karowe Mine is the first operational asset in Lucara Diamond Corp's portfolio. Having been in production since the middle of 2012, the mine has already produced some exceptional diamonds, including two spectacular blue diamonds which were sold on tender in the last quarter of 2012 and the first quarter of 2013.

This will be the first "Special Diamond Sale" of Karowe diamonds which is being held in addition to the normal eight tenders which are conducted at regular intervals through the year. In total Lucara intends to sell up to 400,000 carats a year from its Karowe Mine.

## Rough Diamond Tender
